

SIT725 1.1P - Programming Skills Comment

Programming Skills: I have solid programming experience in Python, C++, and Java from previous coursework and research projects. I have led group projects in SIT317 and led a Capstone project in SIT378.

JavaScript Familiarity: I have solid JavaScript experience including DOM manipulation, event handling, and web development fundamentals from previous web application development projects. While I have some experience with Node.js and CSS frameworks like Materialize, I will complete the LinkedIn Learning course to refresh and strengthen these skills.

Target Grade: HD (High Distinction)

I have created my GitHub account and confirmed OnTrack access. Looking forward to this unit!
